

Mersey Care Drug and Alcohol Services

Mersey Care
NHS Foundation Trust

We help people who live in Liverpool with drug and alcohol problems both in their local community and as an inpatient.

If you have concerns about the amount of drugs or alcohol that you or someone you know is using, you can self refer into Brook Place (for help with drug use) or Liverpool Community Alcohol Service, or discuss your concerns with your GP.

If you're in urgent need of help we recommend you contact your GP, call 111 or visit your nearest A&E department. They will be able to help you stay safe and link you into a relevant treatment service so that you can begin your journey to recovery.
