MERSEY CARE NHS TRUST

Safer Staffing Report

PURPOSE

1. The purpose of this report is to provide a briefing to the committee on the nursing inpatient staffing levels for the month of April 2016.
2. This paper provides assurance that we are regularly reviewing and monitoring our inpatient staffing levels.

WARD REPORTING

3. Each of the 41 wards across the Trust has a planned number of registered and unregistered nurses. The budgeted planned number of staff is reviewed every six months with agreement from clinical managers on the required numbers.
4. From April 2015 we have been mapping our actual levels against budgeted planned levels as requested by the Trust Development Authority and NHS England. This is to support appropriate national benchmarking. Table 1 refers.

Table 1: Summary of BUDGETED PLANNED VERSUS ACTUAL

Month	DAY		NIGHT		Trust Total

Apr	91%	109%	98.6%	117.5%	104.7%

5. As a Trust we agreed to continue to report on our actual staffing levels against clinically required staffing levels as this provides more transparency and highlights the requirement to support unplanned care. Table 2 overleaf refers.
