

Independent Practitioner's Limited Assurance Report to the Council of Governors of Mersey Care NHS Foundation Trust on the Quality Report

We have been engaged by the Council of Governors of Mersey Care NHS Foundation Trust to perform an independent limited assurance engagement in respect of Mersey Care NHS Foundation Trust's Quality Report for the year ended 31 March 2017 (the "Quality Report") and certain performance indicators contained therein against the criteria set out in the 'NHS foundation trust annual reporting manual 2016/17' and additional supporting guidance in the 'Detailed requirements for quality reports for foundation trusts 2016/17' (the 'Criteria').

Scope and subject matter

The indicators for the year ended 31 March 2017 subject to the limited assurance engagement consist of the national priority indicators as mandated by NHS Improvement:

- 100% enhanced Care Programme Approach patients receiving follow-up contact within seven days of discharge; and
- Admissions to inpatient services had access to crisis resolution home treatment teams.

We refer to these national priority indicators collectively as the 'Indicators'.

Respective responsibilities of the directors and Practitioner

The directors are responsible for the content and the preparation of the Quality Report in accordance with the criteria set out in the 'NHS foundation trust annual reporting manual 2016/17' and supporting guidance issued by NHS Improvement.

Our responsibility is to form a conclusion, based on limited assurance procedures, on whether anything has come to our attention that causes us to believe that:

- the Quality Report is not prepared in all material respects in line with the Criteria set out in the NHS foundation trust annual reporting manual 2016/17 and supporting guidance;
- the Quality Report is not consistent in all material respects with the sources specified in NHS Improvement's 'Detailed requirements for external assurance for quality reports for foundation trusts 2016/17'; and
- the indicators in the Quality Report identified as having been the subject of limited assurance in the Quality Report are not reasonably stated in all material respects in accordance with the 'NHS foundation trust annual reporting manual 2016/17' and supporting guidance and the six dimensions of data quality set out in the 'Detailed requirements for external assurance for quality reports for foundation trusts 2016/17'.

We read the Quality Report and consider whether it addresses the content requirements of the 'NHS foundation trust annual reporting manual 2016/17' and supporting guidance, and consider the implications for our report if we become aware of any material omissions.

We read the other information contained in the Quality Report and consider whether it is materially inconsistent with:

- Board minutes for the period 1 April 2016 to 30 May 2017

- papers relating to quality reported to the Board over the period 1 April 2016 to 30 May 2017
- feedback from Commissioners dated 22 May 2017
- feedback from Governors dated 27 April 2017;
- feedback from local Healthwatch organisations dated 10 May 2017 and 15 May 2017
- feedback from Overview and Scrutiny Committee dated 16 May 2017;
- the Trust's complaints report published under regulation 18 of the Local Authority Social Services and NHS Complaints Regulations 2009, dated 11 May 2017
- the latest national patient survey dated November 2016
- the national staff survey dated 7 March 2017; and
- the Head of Internal Audit's annual opinion over the Trust's control environment dated 12 April 2017.

We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with those documents (collectively, the "documents"). Our responsibilities do not extend to any other information.

The firm applies International Standard on Quality Control 1 and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We are in compliance with the applicable independence and competency requirements of the Institute of Chartered Accountants in England and Wales (ICAEW) Code of Ethics. Our team comprised assurance practitioners and relevant subject matter experts.

This report, including the conclusion, has been prepared solely for the Council of Governors of Mersey Care NHS Foundation Trust as a body, to assist the Council of Governors in reporting Mersey Care NHS Foundation Trust's quality agenda, performance and activities. We permit the disclosure of this report within the Annual Report for the year ended 31 March 2017, to enable the Council of Governors to demonstrate they have discharged their governance responsibilities by commissioning an independent assurance report in connection with the indicators. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Council of Governors as a body, and Mersey Care NHS Foundation Trust for our work or this report, except where terms are expressly agreed and with our prior consent in writing.

Assurance work performed

We conducted this limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised) – 'Assurance Engagements other than Audits or Reviews of Historical Financial Information' issued by the International Auditing and Assurance Standards Board ('ISAE 3000'). Our limited assurance procedures included:

- evaluating the design and implementation of the key processes and controls for managing and reporting the indicators;
- making enquiries of management;
- analytical procedures;
- limited testing, on a selective basis, of the data used to calculate the indicators tested back to supporting documentation;

- comparing the content requirements of the 'NHS foundation trust annual reporting manual 2016/17' and supporting guidance to the categories reported in the Quality Report; and
- reading the documents.

A limited assurance engagement is narrower in scope than a reasonable assurance engagement. The nature, timing and extent of procedures for gathering sufficient appropriate evidence are deliberately limited relative to a reasonable assurance engagement.

Limitations

Non-financial performance information is subject to more inherent limitations than financial information, given the characteristics of the subject matter and the methods used for determining such information.

The absence of a significant body of established practice on which to draw allows for the selection of different but acceptable measurement techniques which can result in materially different measurements and can affect comparability. The precision of different measurement techniques may also vary. Furthermore, the nature and methods used to determine such information, as well as the measurement criteria and the precision of these criteria, may change over time. It is important to read the Quality Report in the context of the criteria set out in the 'NHS foundation trust annual reporting manual 2016/17' and supporting guidance.

The scope of our limited assurance work has not included governance over quality or non-mandated indicators which have been determined locally by Mersey Care NHS Foundation Trust.

Our audit work on the financial statements of Mersey Care NHS Foundation Trust is carried out in accordance with our statutory obligations and is subject to separate terms and conditions. This engagement will not be treated as having any effect on our separate duties and responsibilities as Mersey Care NHS Foundation Trust's external auditors. Our audit reports on the financial statements are made solely to Mersey Care NHS Foundation Trust's members, as a body, in accordance with paragraph 24(5) of Schedule 7 of the National Health Service Act 2006. Our audit work is undertaken so that we might state to Mersey Care NHS Foundation Trust's members those matters we are required to state to them in an auditor's report and for no other purpose. Our audits of Mersey Care NHS Foundation Trust's financial statements are not planned or conducted to address or reflect matters in which anyone other than such members as a body may be interested for such purpose. In these circumstances, to the fullest extent permitted by law, we do not accept or assume any responsibility to anyone other than Mersey Care NHS Foundation Trust] and Mersey Care NHS Foundation Trust's members as a body, for our audit work, for our audit reports, or for the opinions we have formed in respect of those audits.

Conclusion

Based on the work described in this report, nothing has come to our attention that causes us to believe that, for the year ended 31 March 2017:

- the Quality Report is not prepared in all material respects in line with the Criteria set out in the NHS foundation trust annual reporting manual 2016/17 and supporting guidance;

- the Quality Report is not consistent in all material respects with the sources specified in NHS Improvement's 'Detailed requirements for external assurance for quality reports for foundation trusts 2016/17'; and
- the indicators in the Quality Report identified as having been the subject of limited assurance in the Quality Report have not been reasonably stated in all material respects in accordance with the 'NHS foundation trust annual reporting manual 2016/17' and supporting guidance.
