

Mersey Care Mental Health Referral Information Booklet

September 2019 (version 2)

The purpose of this booklet is to provide GPs across Liverpool, South Sefton, Kirkby, Southport and Formby with an overview of the referral options available to them for patients who present with a mental health issue. We have tried to make it as definitive as possible and we will issue updated editions which will be dated and numbered on a regular basis. This information booklet will be available on your local CCG intranet along with being emailed directly to your practice.

Mersey Care NHS Foundation Trust currently provides Mental Health Services across Liverpool, South Sefton, Kirkby, and Southport and Formby. We also provide community services in South Sefton and Liverpool. We organise our services across five neighbourhoods (localities) and all GP practices are aligned to one of these neighbourhoods. The mental health services we provide are available across all five neighbourhoods and this booklet provides specific details on how you, as a GP can make a referral to the required service within your neighbourhood.

If, in advance of making a referral you wish to discuss what type of referral is best suited for a specific patient, please feel free to contact a member of your Primary Care Mental Health Liaison Team for advice. The details of your Mental Health Liaison Team are provided in Section 13.

We hope you find this booklet useful in helping you make the most appropriate referral for each of your patients.

Section 1 – Making a Referral to Adult Mental Health Services (Single Point of Access)

Adult Mental Health services support individuals with mental illnesses and personality disorder presenting with active risk and/or complexity that cannot be safely managed alone in primary care. Before considering making a referral to Adult Mental Health, you may wish to consider other alternatives which are outlined in sections 3 onwards. If you want to make a referral to Adult Mental Health for full assessment it is necessary for you to complete the Adult Mental Health Referral Form which is on EMIS. A referral will not be considered by the triage team unless it has been made on this form.

If you wish to refer a patient previously known to CMHT services a new referral must be made using the Adult Mental Health Referral form on EMIS.

Neighbourhood	How to make a referral to Adult Mental Health
Liverpool South covering the areas of Childwall, Wavertree, WAGGA, Speke, Belle Vale and Riverside	Referrals for Adult Mental Health should be made to the Single Point of Access Team (SPA) based at Clock View Hospital. (Phone 0151 330 7207) In certain circumstances it will be possible for a service user to be assessed at an alternative site. If you think this is necessary when making the referral please indicate on the referral form.
Liverpool Central covering the areas of City Centre, Kensington, Picton and West Derby	All referrals to Adult Mental Health Services for assessment have to be made on the Adult Mental Health Referral Form which is on EMIS and then sent to mcn-tr.clockviewspa@nhs.net
Liverpool North covering the areas of Aintree, Croxteth, Norris Green, Everton, Anfield and Walton	All referrals will be triaged usually within 24 hours and prioritised into urgent (seen by Assessment Team within 48 hours) and routine (seen within 2 weeks).
South Sefton covering the areas of Bootle, Seaforth, Litherland, Crosby and Maghull	If as a GP you wish to have a discussion regarding referral options for a specific patient before making a referral to Secondary Care for assessment, please feel free to contact your named Primary Care Mental Health Liaison Practitioner Team as detailed in Section 13.
Kirkby	
Southport and Formby	The Single Point of Access for North Sefton will be open from Monday to Friday 9am to 5pm (Phone 01704 383075) All referrals to Adult Mental Health Services for assessment have to be made on the Adult Mental Health Referral Form which is on EMIS and then sent to mcn-tr.southportspa@nhs.net Referrals will be triaged through the working days or Monday morning if sent after 5pm on a Friday. Urgent referrals will be seen within two working days. Routine referrals will be seen within two weeks.

Section 2 – Making a Referral to Older Persons Services (over 70s)

The service provides mental health assessment for people over the age of 70 which includes memory assessments of any age; this will provide a diagnosis and the appropriate treatment plan developed. The service delivers Post Diagnostic Interventions for Liverpool patients who have a diagnosis of dementia irrespective of where this is received; part of this process is the referral to the care navigator service for on-going support.

Things to include when making referrals to older persons services:

- Current mental health problem and impact on functioning
- History/ duration of problem
- Interventions (including medications and psychological) tried and response or problems with such
- Current medications
- Medical history including any recent investigations
- Contact telephone number/number of significant carers
- Other agencies involved
- Risk history and current concerns about risk/ safeguarding issues
- GP summary including recent blood results
- Any other relevant issues or comments you think will be helpful.

Things to include if you suspect a person has dementia:

Same as above plus:

- Dementia screening bloods (FBC, U&E, TFT, B12, and Folate and Bone)
- NOK or carer details to contact to act as informant.

Section 11 – Making a Referral to Perinatal Services

Specialist inpatient and community services are offered for mothers in the ante natal and post natal period. Referrals are accepted for mums with babies up to the age of 6 months. Pre-conception advice is also available for women on medication or receiving mental health services, who are planning to become pregnant. All referrals are triaged by the perinatal team and if appropriate an appointment is offered to attend our perinatal clinic either at Liverpool Women’s Hospital or University Hospital Aintree clinics or to be seen via a home visit. The team also gives advice or sign posts to appropriate agencies if a referral is not appropriate. This small team includes a consultant psychiatrist, senior mental health nurse and specialist midwife who specialise in perinatal mental health. Referrals are accepted from health professionals, we are unable to accept self-referrals.

The team works with people being cared for within psychiatric inpatients units, community mental health teams, maternity services and liaises with mother and baby units when necessary.
